Data Structures and Algorithms – ICT2113 **Level 2- Semester 1**

Laboratory Assignment 7

Objectives:

Understand the implementation of Binary Tree data structure in C.

1) Implement a binary search tree. Write a type definition to ***Tree***. The **Tree** should have a ***info*** element a ***left*** reference and a ***right*** reference.

   Implement the following functions

   ```
   void inorder(struct tree *);
   void postorder(struct tree *);
   void preorder(struct tree *);
   struct tree *delete(struct tree *,int);
   struct tree *search(struct tree *);
   ```
